PROVO, March 12.—A mass meeting of citizens was held here tonight in the Central school building, to protest against alleged discrimination on the part of the city in prosecuting violators of the liquor ordinance. Jacob Gerse was elected chairman, and was the principal speaker. Its discussed at great length the prohibition question and called particular at tention to the recent prosecution of violators of the law. He declared that within the fast three days three men had been prosecuted, two of whom had been allowed to go free on a fine in a monthal sum, while the third, whose case, he said, was exactly the same, was sentenced to seventy-five days in jail.

Mr. Gerse said that the two men released under fines were prominent businezs men, while the third was an obscure hackdriver. City Commissioner Leroy Dickson was present. Chairman Geosc asked him to answer the question of discrimination as shown in the prosecution of the three men. Commissioner Dickson defended the city, saving that the facts in the cases had governed and not discrimination.

the tremendous bearing of the supreme court's patent monopoly decision yesterday upon the government's anti-trust campaign, Attorney General Wickersham today turned his attention toward the probability of a rehearing of the case.

The department of justice, it was declared, will lend its assistance in presenting the case to the supreme court, if a rehearing is granted.

The attorney general today communicated with the defeated parties to asterialn if they contemplated asking a full bench to reconsider the important issue. The government is anxious to know their plans because only by their request can the case be reopened.

Should an application for a rehearing be made, it is said, the attorney general will ask for permission to intervene and present the bearing of the legalized monopoly of a patent upon the Sherman anti-trust law. day upon the government's anti-trus

REVOKE CHARTER OF HEINZE'S COMPANY

NEW YORK, March 12.-The charter of the United Copper company has been declared forfelted by the state of New Jersey for non-payment of taxes. The com-pany was organized by F. Augustus Heinze in 1962 with a capitalization of \$80,000,000. Mr. Heinze said:

We pay \$6000 a year corporation taxes in New Jersey. We own the property. The non-payment of taxes was clearly a clerical oversight. The United Copper company has no intention of giving up its charter. It is true that in time there may be reorganization of the company and it may develop that new interests in its reorganization may wish to secure a new charter, but at present we are not going to let the present charter go by default for taxes.

Since 1908 no taxes have been paid, the annual assessments for the years since 1909 being overdue.

Attorney General Considers Bryan Declares Political Ambitions Are Inimical to Best Public Service.

WASHINGTON, March 12.-Aroused by IN FAVOR OF RECALL

Believes Application of Principle Would Heighten Character of Bench.

COLUMBUS, O., March 12 .- William Bryan today gave the Ohlo constitutional convention his views on the making the constitution. He spoke in avor of the initiative and the referendum and the recall, saying the recall is an evolution rather than a revolution Mr. Bryan said:

The only difference between the re-call as now proposed, and impeach-ment, as it has been employed, is that in impeachments the trial is before a body of officials, while the recall places the decision in the hands of the people.

hands of the people.

Mr. Bryan said there was no darket page in our industrial life than that which recorded indifference to the welfare of children—"the coining of dividends out of childhood, the darkening of the prospects of a rising generation, and the impoverishing of posterity."

In championing the initiative and referendum, Mr. Bryan said:

Experience has shown that the defects of our government are not in the people themselves, but are in those who are acting representatives of the people, emberzie power and turn to their own advantage the authority given them for the advancement of the welfare.

Courts and Recall.

Concerning courts and recall of judge Mr. Bryan said:

fr. Bryan said:

The judge, like every other officer, is the servant of the people; and there is no reason why he should be made independent of a permanent public opinion upon questions fundamental in character. The people are much more apt to deal justly with judges than they are to receive justice at the hands of judges who distrust the good intent of the masses.

masses.

The judge who would be swerved by fear of a recall would not be fit for the place, anyhow. If there is any position in which we need rigid, uncompromising uprightness, it is upon the bench, and the recall, instead of menacing the independence of the judiciary, is more likely to improve the character of those who occupy judicial positions.

Would Limit Terms.

With the recall, official terms, with safety, may be made longer. Speaking of the length of terms, the tendency is toward making an executive ineligible to re-election. No one can devote his best energies to the public if his vision is clouded by political aspirations, or his judgment perverted by personal considerations. Referring to taxation, Mr. Bryan said. The income tax is likely to be employed by the federal government, but that is no reason why it should not be employed in the state. It is not double taxation to include a tax upon incomes by both state and federal governments.

JURY MUST DETERMINE MEAT PACKERS' CASE

CHICAGO. March II.—A desperate fight for delay, resulting in their being granted a temporary respite, was made by attorneys for the indicted packers today, following Judge Carpenter's refusal to take the case from the jury. Brushing aside technicalities urged by the defendants, Judge Carpenter declared that the alleged criminal acts committed by the defendant's corporations could not be charged to the officiousness of underlings and referred to the absurdity of the court being expected to be blind to things that are apparent to all others.

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acrid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acrid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acrid blood, and permanently cures avery variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.
